

# **SAFETY DATA SHEET (SDS)**

ID: **C110SP** 

DATE ISSUED:

5/28/2015

SECTION 1 – PRODUCT IDENTIFICATION & COMPANY INFORMATION					
PRODUCT NAME:		C11000 ELECTROLYTIC TOUGH PITCH SILVER PLATED COPPER			
OTHER DESIGNATIONS:		S:			
PRODUCT IDENTIFICATION:		N: Copper and Copper Alloys			
MANUFACTURER'S INFORMATION:		THE ELECTRIC MATERIALS COMP SO SOUTH WASHINGTON STREET NORTH EAST, PA 16428			
EMERGENCY PHONE NO.:		).: <b>814-725-9621</b>	WEBSITE:	WWW.ELE	CMAT.COM
RECOMMENDED USE AND RESTRICTIONS ON USE:  Manufacturing & Industry for non-structural components predominantly to conduct electrical current.					
		SECTION 2 – HAZARD IDENTIFICA	ATION		
CLASSIFICATION: so		opper and copper alloys are considered on "article" and not hazardous in its olid from. However, certain processes such as cutting, milling, grinding, melting nd welding could result in some hazardous materials being emitted.  Fumes from hot processes may contain other compounds with different exposure limits. Dust or fumes generated by machining, grinding,			
OTHER INFORMATION:		welding or thermal cutting of the copper may produce airborne contaminants. Consult Sections 3 & 8 for further information.			
	SECTION	N 3 – COMPOSITION/INFORMATION	ON INGRED	IENTS	
CHEMICAL NAME		COMMON NAME	CA	S #	PERCENT WEIGHT
Cu Ag		Copper Silver	7440 7440		99.99% 0.01%
		SECTION 4 – FIRST AID MEASU	RES		
EYE CONTACT:	Eye injuries from solid particles should receive immediate medical attention. Dust may be flushed from eyes immediately with large amounts of water, lifting the lower and upper lids occasionally; seek medical attention.				
SKIN CONTACT:	Cuts or abrasions should be treated promptly with thorough cleansing of the affected area. Wash the skin using soap or mild detergent and water. Get medical attention if irritation develops and persists.				
INGESTION:	If the product or dust is swallowed, seek immediate medical attention or advice. Do not induce vomiting.				
INHALATION:	If breathing has stopped, perform artificial respiration and obtain medical aid immediately. If breathing is difficult, provide fresh air and seek medical attention as soon as possible.				
		SECTION 5 – FIREFIGHTING MEA	SURES		

FLAMMABLE PROPERTIES: No			applicable		
			applicable; non-combustible		
			dust fire in a confined area, use a respirat	or approved for toxic dusts	
		and t	fumes. Do not use water to extinguish fire	s around operations	
PROTECTION OF FIREFIGHTERS: inv			ving molten metal due to the potential for	steam explosions.	
	SECTIO	N 6 -	ACCIDENTAL RELEASE MEASURES		
When cleaning dust, use met	thods that mir	nimize	y be picked up by hand or other means to be the dispersion of dust such as a high efficitovered material in a suitable, covered, and	ency particulate air (HEPA)	
	SEC	CTION	7 – HANDLING AND STORAGE

			llation (work) environment. Operations su	G. G.	
		burning, and welding may generate dusts or fumes which may require			
	CECTION O F		ial handling procedures.		
			GURE CONTROLS/PERSONAL PROTECTION		
ENGINEERING CONTROLS:	When machining, heating, or melting, use adequate local (preferably) or general exhaust ventilation to ensure that concentrations of dusts or fumes do not exceed exposure limits. Keep workplace clean and dry (unless wet machining is being used to capture dust and fume). Train personnel to minimize exposure to hazards during installation and replacement of product. On a regular basis, verify condition and property.				
	function of 6	equip	ment in which the product will be installed	•

g. nigne	i dust expos	sures may cause uninculty		
breathing, congestion, and chest tightness.				
If present as dust, copper may cause irritation, discoloration, and damage. As a foreign body in the lens, copper dust may cause a dense cataract and discolor the lens.				
Ingestion of significant amounts of welding electrodes is unlikely. If copper is				
swallowed and person is conscious, give large quantities of water to drink. Get medical				
attention as soon as possible. Serious effects may occur if large amounts of dust are swallowed.				
Breathing metal dust may worsen symptoms of individuals with pre-existing chronic				
respiratory disease. Follow exposure guidelines for copper dust and fume. Acute				
exposure to dust or fume may cause upper respiratory tract irritation, metallic taste in				
mouth, nausea, fatigue, and/or metal fume fever. Breathing copper dust may worsen				
symptoms of individuals with pre-existing chronic respiratory disease.

#### **TERMS:**

OSHA – Occupational Safety & Health Administration

Y = Listed as a human carcinogen

NTP - National Toxicology Program

K = Known to be a human carcinogen

R = Reasonably anticipated to be a human carcinogen (RAHC)

IARC - International Agency for Research on Cancer

1 = Carcinogenic to humans

2A = Probably carcinogenic to humans

2B = Possibly carcinogenic to humans

3 = Unclassifiable as to carcinogenicity to humans

4 = Probably not carcinogenic to humans

Other -

NL = Not listed

SECTION 12 – ECOLOGICAL INFORMATION				
ECOTOXICITY	PERSISTENCE AND DEGRADABILITY			
Not applicable	Not applicable			
BIOACCUMULATION POTENTIAL	MOBILITY IN SOIL			
Not applicable	Not applicable			

#### OTHER ADVERSE EFFECTS

Copper metal is relatively insoluble in water and, therefore, generally has low bioavailability. This product is not expected to present an environmental hazard. Avoid releasing dusts and fumes into the environment.

#### **SECTION 13 – DISPOSAL CONSIDERATIONS**

Recover or Recycle if possible. Dispose of according to Federal, State and Local Regulations. Dust collected from machining, welding, etc. may be classified as a hazardous waste. Consult Federal, State and Local regulations.

SECTION 14 – TRANSPORT INFORMATION				
US DEPT OF TRANSPORTATION	CANADIAN TRANSPORTATION OF

Component	CAS#	% By Weight
Copper	7440-50-8	≥ 99.99
Silver	7440-22-4	≥ 0.01

# US-EPA (TOXIC SUBSTANCES CONTROL ACT - TSCA)

All components of these products are on the TSCA inventory list or are excluded from listing.

#### **US-EPA (SARA TITLE III)**

Releases to the environment of **Copper** may be subject to reporting under Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 and 40 CFR Part 372.

## CANADA-WHMIS (WORKPLACE HAZARDOUS MATERIALS INFORMATION SYSTEM)

This SDS has been prepared according to the hazard criteria of the Controlled Product Regulations (CPR) and the SDS contains the information required by the CPR.

## CANADA DSL (DOMESTIC SUSTANCES LIST) INVENTORY STATUS

All components of these products are on the DSL Inventory.

# CEPA (CANDIAN ENVIRONMENTAL PROTECTION ACT)

No components are on the Toxic Substances List.

# EINECS NO. (EUROPEAN INVENTORY OF EXISTING COMMERCIAL CHEMICAL SUBSTANCES)

All components of these products are on the EINECS list.

## RoHS (RESTRICTION OF CERTAIN HAZARDOUS SUBSTANCES) COMPLIANCE

Castings comply with RoHS.

## CALIFORNIA PROPOSITION 65 COMPLIANCE

Copper is not on California's Proposition 65 list. (California Health & Safety Code 25248.5 et seq.)

#### US STATE REGULATORY INFORMATION

Some of the components listed I Section 3 (e.g., Copper) may be covered under specific state regulations.

# SDS PREPARED BY The information herein is given in good faith and based on technical date The Electric Materials Company believes to be reliable. Since the conditions of use are outside our control, we assume no liability in connection with any use of this information and no warranty, expressed or implied is given. Contact the Electric Materials Company or its associates for additional information.

#### NOTE:

This data and label information is offered in good faith as typical values and not as a product specification. No warranty either expressed or implied is hereby made. The recommended industrial hygiene and safe handling procedures are believed to be generally acceptable. However, each user should review the recommendations in specific context of the intended use and determine if they are appropriate.

**LABEL Information:** 

We have no current labels for C110SP.
